Appendix 1: Tables & Figures.

Figure 1. Opinion polls 1943-2013 with either the question "Are you for or against the monarchy" or "Do you want to replace the monarchy with an elected president". Percent that supports the monarchy. Large filled circle mark 10-year averages (1960±5 years etc.). Sources: 56 opinion polls from Demoscope, FSI, Ipsos, Consumer data, Novus Opinion, Sifo, SOM Institute, Svenska Gallup, Svenska Testhuset AB, Synovate, Temo & Testkonsult (n=750-3000).

Figure 2. Opinion polls 1980-2019 with the question "Do you trust the royal house". Percent of those who have confidence in the royal house. Sources: 30 opinion polls from Sifo, FSI, Demoscope, Novus Opinion, SOM Institute & Schibsted Inizio (n=750-3000).

Figure 3. Opinion polls 1981-2016 with the question "Do you trust the royal house". Trust balance (percent positive minus percent negative). Three groups: Population, Journalists & Parliament. Sources: SOM Institute ($n\approx3000$); "journalist survey" ($n\approx1500$); "parliament survey" ($n\approx250$) & two further surveys.

Figure 4. Rank order 1984-2011 of kung Carl Gustaf, queen Silvia and crown princess Victoria according to the criterium Sweden's most popular man or woman. Sources: ICA-kuriren 1984-2007 ($n\approx1000$); SOM-institutet 2008 & 2011 ($n\approx3000$).

Figure 5. Swedish democracy 1800-2018 (-10=absolute monarchy; +10=full parliamentary democracy). 1809-1811 and 1907-1916 are considered transitional periods. These years are not coded (special code=-88), but the values have been interpolated. (Source: Polity IV)

Table 1. The joint activities of King Carl Gustaf and Queen Silvia 1997-2011. Annual averages of number of activities. N=4358 during 15 years. One activity ≤ 1 day. The numbers are rounded to the nearest integer.

| | N_{CG} | N _{Silvia} |
